

Integrated Management Policy

Solarig Group develops, builds and manages solar PV plants around the world, a power source based on renewable energies thus contributing to meeting energetic needs, helping the environment, and improving the population's quality of life.

*Solarig's leading position within the Renewable Energy sector has been encouraged by our efforts to carry out our projects and continuously improve in accordance with the requirements set by the Integrated Management System in compliance with international standards **ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018.***

By implementing this Integrated Management System, Solarig operates systematically according to the demands from clients, interested parties and the employees themselves, always bearing in mind continuous improvement. In order to do so, our daily work is distinguished by our commitment and the following guidelines:

- *Achieving our clients' utmost satisfaction by complying with their demands, needs and expectations.*
- *Operating while respecting and protecting the environment, minimising the resources used and creating the least amount of negative impacts.*
- *Periodic control to prevent occupational risks that could occur during the development of our activity both to our employees as well as to external personnel that could be affected.*
- *Promoting communication and participation between employees and third parties to create a better work environment and implement improvement measures.*
- *Complying with legal frameworks into which Solarig may enter as well as other requirements Solarig may subscribe.*

Being successful in achieving our growth prospects and fulfilling our commitment to Quality, Health and Safety in the workplace, and the Environment is possible thanks to the team of professionals that integrate Solarig Group, whose professionalism, knowledge and commitment allow us to develop projects internationally, thus allowing Solarig to grow within the renewable energy field.

SOLARIG makes daily efforts to balance our growth prospects with our commitment to Quality, the Environment, Health and Safety in the workplace and to Society in general. Thus, this policy and these pledges are transferred to third parties whose work and relationship with Solarig are essential in achieving such objectives.
